

HanuAi Private Limited

Your Partner in Road Maintenance and Road Safety System

Who We Are

HanuAI Private Limited, founded by Prerna Kalra, Manav Singal, and Dr. Rahul, specializes in AI-driven road maintenance solutions. Their flagship platform **Road Asset Management & Monitoring System (RAMMS) RoadAthena®**, leverages AI for detecting pavement distress, road anomalies, and road furniture issues. With GIS integration and analytics dashboards, it offers a 360-degree view of road digitization. RoadAthena® enables faster, more accurate, and cost-effective preventive road maintenance, extending pavement life. With strong market potential in India and globally, HanuAI's technology is already deployed, recognized, and making a significant impact.
